

FC 430 cc

FC Boats

DESIGNED BY FISHERMEN FOR FISHERMEN

The FC 430 cc (Centre Console) and FC 430 ss (Side Steer) are designed for the angler that wants a smaller, easily handled craft with 100% fishability with the option of either a standing or side seated driving position in a proven hull package. Originally designed for inshore fishing/diving the FC 430 has constantly impressed its new owners with its great sea keeping ability, even when being pushed in rougher weather than planned. Its stability, safety and unique features including built in passive live bait tank have helped anglers target and catch the fish they love, including many Marlin captures on both the east and west coasts. So, whether you want the fishability of the centre console, or the sporty driving position and room of the side steer, the FC 430 centre console or FC 430 side steer will let you target the type of fishing/boating you love to do. The FC 430 offers ease of use and safety that only comes from a boat “designed for fishermen buy fishermen”.

STANDARD FEATURES

CENTRE CONSOLE FEATURES

- Mercury 40HP ELPT 4-Stroke
- Accessory Switch Panel
- Anchor, Warp and Chain
- Battery, Isolator Switch and Box

It's true "Boats built by Fisherman for Fisherman
We wanted a light, stable, versatile, and Safe small boat to do Saltwater and fresh water fly fishing and to be able to get outside to jig and stick bait for bigger pelagic fish as well. The FC 430 cc is highly versatile for us fishing the flats in Golden Bay or the North Island harbours for Kingfish, snapper and other saltwater species on fly thru to targeting structures in the open, equally at home on the lakes and rivers throughout both Islands."
Grant, Max & Tim - Team Surf Candy
