

FC 635 HT

FC Boats

DESIGNED BY FISHERMEN FOR FISHERMEN

The FC 635 HT (Hard Top) has been designed to maximise your valuable time on the water. With its raised shearline and extended Gunwales the FC 635 HT gives you maximum protection if the weather turns bad. Its FC Flooding chamber and separate Ballast tank lets you adjust the balance to give you a smoother ride when in a head or quartering sea and gives unbelievable stability at rest. With cabin bunk extensions and multiple seating options we can set it up as a hard-out day boat or a full-on overnighter. Live bait tank is standard to help target bigger fish and a 200L fuel tank will give plenty of range for those exciting offshore adventures. The FC 635 HT needs to be driven to be appreciated and we believe this is one of the best handling 6.35m hard tops available.

STANDARD FEATURES

HARD TOP

- Mercury 150hp 4-Stroke
- Accessory Switch Panel
- Battery Lockers and Hatches
- Battery with Isolator Switch
- Boarding Platforms, Dive Ladder and Hand Rails

When I say use it that we have, West Coast is my playground and the FC is built for it, I have crossed the Raglan and Manukau bars with breaking waves on the way out and slice straight through them with little effort, very impressed. Have done multiple shelf missions, staying overnight and the cabin space is big and comfortable to add to the list. Rides awesome in the water all round, trolling which I have done a lot of now with marlin under the belt to, we average 7.5 to 9 litres per/hr at 7.5 knots, to me the boat feels like its part of the water and differently has the right vibration in the water because the fish just keep coming. ”

Greg Mathews | HIGHLY RECOMMEND FC BOATS
